

MS OFFICE & GOOGLE WORKSPACE

Name: Md Ehrarul Haque | 26CSBSAF550

S.No	Feature	MS Office	Google Workspace	Best Performing Tool
1	Text formatting	Excellent: advanced styles, fonts, paragraph controls, themes and layout tools.	Very good: strong formatting in Docs, with a simpler interface.	MS Office
2	Table creation	Excellent: advanced table tools, formulas, formatting and layout controls.	Very good: easy table creation and sharing, but fewer advanced layout features.	MS Office
3	Real-time collaboration	Good: co-authoring is supported, especially with Microsoft 365/OneDrive.	Excellent: real-time multi-user editing, comments and sharing are core features.	Google Workspace
4	Saving/exporting formats	Excellent: broad support for DOCX, XLSX, PPTX, PDF and many other formats.	Good: easy export to Microsoft Office formats and PDF, but some formatting can change.	MS Office
5	Offline availability	Excellent: desktop applications provide strong offline functionality.	Good: offline editing is available after enabling offline mode, but setup is required.	MS Office
6	Macro/automation support	Excellent: VBA macros, Office Scripts and Power Automate provide extensive automation options.	Good: Apps Script provides powerful automation, but it uses a different scripting ecosystem.	MS Office
